Subject: Dimock: Statement and Reactive QandA's

Scott:

Following up on my e-mail message and phone conversation of earlier today

This is the final version of the Dimock Statement and Reactive QandA's relative to the first week of sampling results. This is the one completed last week.

This document is a close to final draft version which was used to develop the final version provided above. Only providing you this one as background

Ex. 5 - Deliberative

Ex. 5 - Deliberative

Following the model established through the first attachment above, here's the current draft based on the review and finding from the 2nd week of sampling data reviewed this past Wednesday. This is an advanced copy of it while the official draft comes in through the HQ OEAE for vetting through HQ Sr. Leadership. You (Scott) should give this one a review and provide comments/feedback to Dana T. and myself (Cc Janine and Terry). The end goal for the vetting of this document is to have a final ready by next Monday.

- 032912 - Draft Round 2 Dimock Statement and Reactive Qs and As.docx
